

SuperFunnel

Keep your motor running!

TP-Filter has supplied gasoline filter fabrics for all types of vehicle producers since 1986 seeing to that their engines will run effortless year after year!

Now we offer the same solution for any boat, motorcycle, airplane or other motor sport application. As well as garden lawn mower, chainsaw or other type of combustion engine tool.

Keep away all dust and dirt, even the smallest particles, with this SuperFine filter fabric when you fill the gasoline tank and your motor will run maintenance free.

Additionally the filter will separate any water collected in the gasoline due to storage in cold condition over long time. A normal cause of engine failure.

The filter is simple to install in any type of funnel with the delivered items with the help of the installation manual included.

The key advantage is the SuperSize area of the filter cloth ensuring a clog free and open area making the filtration and filling of your gasoline tank effortless!
