

Easy in every way

Easier to handle, transport and assemble, thanks to low weight. A reduced risk of fatigue because there are no welds under load. Do you have sectors in need of repair? With *SuperSector*, cost-effective renovation and reuse of the sector outlet are possible.

Our unique sector design permits simple, flexible use in all applications from pulp dewatering to fibre recycling. The structure is open, which facilitates efficient, continuous washing of the sector and filter fabric. *SuperSector* is also independent of the internal flow alignment.

Since 1986, *TP-Filter's* disc-filter bags have been installed in innumerable types of disc-filter sector.

Based on this experience, we have developed an optimal product that is available for every kind of application. Needless to say, you can also order it as a ready-assembled product with the type of filter material you wish.
