

Disc Filter Sectors – Ready to run out of the box With your choice of filter media!

Sprung out of our unique SuperSector Recycling Concept we now also offer a full range of Seed Sectors to either start up a recycling programme or to fill up missing discs in an existing disc filter.

Any disc filter type, brand or size. With details solving original shortcomings and offering special details to customers' demands.

SuperSector comes with preinstalled synthetic filter bags or built in stainless steel mesh in the following versions:

- **SuperSector Classic.** With flat PP or PVDF filter bags.
- **SuperSector Scrambler.** With corrugated synthetic filter media.
- **SuperSector Bonneville.** With built in stainless steel mesh.
- **SuperSector Manxman.** With built in corrugated stainless steel mesh.
